ABOUT ME

What most people remember about me, and what I firmly believe in, is that I am someone who loves spreading joy and peace around them. With excellent social skills, I am neither afraid of interacting with others nor of meeting new people. I can easily combine a positive attitude with achieving results.

EDUCATION

Engineering School
JUNIA ISEN LILLE (France)
2023- 2025
Michel Montaigne High School
(Gabon)
2016 - 2022

EXPERTISE

Member of Robotic Association
"Crysteo" (Embedded computing,
Sensor, Microcontroller, Arduino IDE)
Programming (Python, C++,
JavaScript, HTML, CSS, Git, Algorithm
Optimization)
Mathematics & Science (Linear
Algebra, Combinatorics, Sagemath,
Jupyter)
Interpersonal skills (Teamwork,
communication, adaptability)

PROJECTS

Smart Flower Pot
Designed a self-watering system with
real-time humidity monitoring.
Pathfinding AI
Implemented a shortest-path
algorithm for navigation optimization.
Traffic Light Simulation
Developed a real-time sequential
control system.

EXPERIENCES

● July- August 2023
Trato TLV | 22 Rue Molière, Roubaix
Intern

During my internship at Trato Industrie, I worked on the assembly and wiring of lighting conduits, gaining hands-on experience in electrical wiring, component integration, and quality control. This experience strengthened my precision, efficiency, and teamwork skills in an industrial environment.

● 2023-2024 and 2024-2025
Junia Isen Lille
Class representative

Advising, being close to colleagues and teachers, and taking initiatives have always come naturally to me. However, putting all these skills to work for my friends and classmates was an incredible experience, as it stretched my approach to the art of leadership and positively impacting my environment.

● 2022 - 2023
Generation Elikya Association
Volunteer Experience

A wonderful experience in which I learned many things, notably that doing good for others requires extensive logistics. This pushed me to further refine my ability to think long-term and plan projects.
